RIVERSIDE HOMESTEAD ASSOCIATION

The association of which we gave [illegible] a few days since is now ready to dispose of its shares. As it is with [illegible] exception (the [illegible] of the kind in this [illegible]) the pioneer or [illegible] to what are its purposes and the manner in which it is proposed to conduct its operations. The purposes of these Homestead Associations are not [illegible] speculative in the ordinary sense of the word. They are dependent [illegible] upon the natural advance in the value of their lands consequent upon [illegible] many individuals —shareholders and lands [illegible] values of all surrounding land by reason of the expansion of population and demand for room outside of but still near the city. The Riverside Homestead Association has a [illegible] over one hundred and twenty acres of land situated just south of Brooklyn on the east side of the river the near est boundary being about one mile from the ferry landing at East [illegible]. The tract lies in one strip along the river half a mile in length and another strip along the Oregon and California railroad half a mile in length the two strips being connected near the middle by two rows of blocks (with a street between them) the whole forming a figure not unlike the letter H. It is divided into 74 blocks 200 feet square (with streets running at right angles) and 80 fractional lots along the river front. The shares number 600 worth $60 per share. It will be seen that a share thus represents nearly a lot with an undivided interest in the 80 fractional lots. The 80 fractional shares are to be sold off at the proper time for the benefit of the Association shareholders, coming in for the proceeds in proportion to the number of shares held. When all shares are taken and the Association shall determine to do it the choice of lots and blocks will be put up at auction to the highest bidder the proceeds of such sales after deducting the original price of shares or lots to be divided equally among the whole number of shares. Thus if a person wants a particular lot or block, and is willing to pay $100 or $500 premium (more or less as the case may be) he pays it and takes the lot or block as his individual property the premium being divided among the whole number of shareholders. It will be seen therefore, that everything is co operative and all interests mutual. No man can make a dollar out of it without also making a dollar for every other equal shareholder. There is no chance for loss unless the property by some chance should depreciate far below the first actual cost. Whether this is liable to happen in the case of this particular tract of land must be judged by each for himself, but considering the steady and unprecedented advance on real estate in this city and neighborhood and at East Portland and vicinity, for the last year or two it seems hardly possible for values to go back

In the Riverside Association all proper precautions seem to have been taken to guard against monopolies of shares. No person is allowed to buy more than the number of shares representing three blocks or twenty four lots and votes determining the operations of the Association are restricted in the same manner. The buyers of shares may pay down $60 per share which will exempt them from all assessments or they may pay $15 quarterly with an assessment of $3 per share payable with the first installment, being liable in the latter case to another (and only one other) assessment of $3 per share. Upon the payment of the shares in full with the assessments as above, the holder is entitled to his certificate and his proportion of all the profits accrued from all sources. No officer of the Association receives any pay for services except the Secretary who gets $25 per month so it will be seen that the expenses must be light

That part of the tract lying along the river is a high plateau nearly level about 60 to 90 feet above the water. There is no part of the front row of blocks but commands a splendid view of Portland and the river for miles up and down stream. That part of the tract lying along the railroad is every foot of it of the richest loam soil and adapted to gardening purposes. A beautiful little stream of pure water runs through almost the entire length of this wing of the tract, affording the means of irrigation and power sufficient to supply pure water to every part of the whole tract. There is no waste lot or fractional lot in the entire tract [illegible] these advantages it would seem impossible that there should be any chance of loss to shareholders. Within a year each shareholder [illegible] may get a perfect title to as many lots as his shares may represent or he may continue his interest undivided with the Association while the organization may exist —[illegible]

THE RIVERSIDE HOMESTEAD ASSOCIATION.

We have been [illegible] to make these remarks from the fact that the subject of making homesteads in the outskirts of this city and East Portland is being thoroughly discussed here [illegible] classes and [illegible] method—the Riverside just south of East Portland—has already been established. The site selected is a tract of land lying a little [illegible] the ferry landing. It is shaped like the letter H [illegible] half mile in length [illegible] the river

From [illegible] elevated [illegible] but is still [illegible] above the river [illegible] an extensive view of [illegible] East Portland, the shipping and the Willamette [illegible]. The land is very fertile and [illegible] timber. EASTERN DATES TO NOVEMBER 26.

Attitude of Austria.

VIENNA Nov 24 —Two letters from Count Beust to Count Chatock were laid before the delegations yesterday. In the second Beust says I have made no secret of my conviction that a later treaty placed Russia in an unworthy position. I was all the more pained that she should take such means to rid herself of her burdens

In the Hungarian Diet Von Beust said it was inexpedient to make disclosures at present on the Russian question

PESTH Nov 24 —In the Austrian delegation, Count Von Beust asserted that nothing had been omitted required by the dignity of a monarchy on the Black Sea question. He said that no Russian reply had been received yet and cautioned members of speaking too much of war or peace as equally inopportune in the present crisis

Attitude of Russia.

ST PETERSBURG Nov 25 —The Gazette of the 22d says Russia is not ready for war and cannot be before spring. No step has been taken to put a fleet on the Black Sea, or to fortify its coasts. It will need six months to arm completely, and to raise the money needed for a war, and to put the Nicolaiff ironclad ship yard again in working order

Prince Gortschakoff's reply to Earl Granville's note was read in the Cabinet session last evening. It does not withdraw Russia's claim to a modification of the treaty of Paris and repeats the reference to violation of the treaty by either of the European Powers. He meets Granville's complaint that Russia desired to repudiate the treaty without first appealing to the Powers by expressing a doubt as to whether such appeal would have been successful. The morning papers say the Ministry will stand firm

The St Petersburg Gazette says that Russia cannot withdraw her declaration

Attitude of England.

LONDON Nov 25 —Granville has gone to Windsor Castle to inform the Queen of the impossibility of carrying on the Government with a Cabinet so irreconcilably divided as to policy toward Russia and to tender his resignation on this issue. It will upset the Ministry. A dissolution of the Cabinet can hardly be prevented. At a Cabinet meeting to day Gortschakoff's reply was read and caused a hot and angry discussion. Without a decision the Cabinet adjourned until to morrow. Granville was not there

The Times says the adjournment of the Cabinet was in consideration of Russia's reply to the note of the British Government, which reply is evidence that Russia is not prepared to abide by her original circular, or to ta[illegible] Gortschakoff does not w[illegible] withdrawal of hi[illegible]

A Prussian Scheme to get Possession of Some of the West India Islands

NEW YORK Nov 26 —The Tribune's Washington special says diplomatic circles are excited just now by a curious rumor relating to the repeated efforts of the Prussian government to secure a foothold in the West Indies. It is stated the Prussian agent visited President Baez in San Domingo some three months ago and informally offered to take a reversion of our annexation scheme to purchase the territory of San Domingo and transfer all to German control. Such news reached here from Havana at the time but was generally discredited. Now however Bismarck has made a definite proposition to the government that Prussia shall be allowed to negotiate for a coaling and naval station either in San Domingo or some other of the West India Islands without opposition from the United States, this government to receive the support of North Germany in obtaining a coaling station in the Mediterranean. The foregoing statement is given as a rumor but it is positively declared that its truth is established. Another phase of the report is that the Germans intend attacking the French West India colonies if they find our government at all inclined to listen to them acquiring such territory by transfer or conquest

[DISPATCHES TO THE OREGONIAN.]

EASTERN DATES TO NOVEMBER 26.

Attitude of Austria.

VIENNA Nov 24—Two letters from Count Beust to Count Chatock were laid before the delegations yesterday. In the second Beust says I have made no secret of my conviction that a later treaty placed Russia in an unworthy position. I was all the more pained that she should take such means to rid herself of her burdens.

In the Hungarian Diet Von Beust said it was inexpedient to make disclosures at present on the Russian question.

PESTH Nov 24—In the Austrian delegation, Count Von Beust asserted that nothing had been omitted required by the dignity of a monarchy on the Black sea question. He said that no Russian reply had been received yet and cautioned members of speaking too much of war or peace as equally inopportune in the present crisis.

Attitude of Russia.

ST PETERSBURG Nov 25—The *Gazette* of the 2d says Russia is not ready for war and cannot be before spring. No step has been taken to put a fleet on the Black Sea or to fortify its coasts. It will need six months to arm completely, and to raise the money needed for a war, and to put the Nicolaieff ironclad ship yard again in working order.

Prince Gortschakoff's reply to Earl Granville's note was read in the Cabinet session last evening. It does not withdraw Russia's claim to a modification of the treaty of Paris and repeats the reference to violation of the treaty by either of the European Powers. He meets Granville's complaint that Russia desired to repudiate the treaty without first appealing to the Powers by expressing a doubt as to whether such appeal would have been successful. The morning papers say the Ministry will stand firm.

The St Petersburg *Gazette* says that Russia cannot withdraw her declaration.

Attitude of England.

LONDON Nov 25—Granville has gone to Windsor Castle to inform the Queen of the impossibility of carrying on the Government with a Cabinet so irreconcilably divided as to policy toward Russia and to tender his resignation on this issue. It will upset the Ministry. A dissolution of the Cabinet can hardly be prevented. At a Cabinet meeting to day Gortschakoff's reply was read and caused a hot and angry discussion. Without a decision the Cabinet adjourned until to morrow. Granville was not there.

The *Times* says the adjournment of the Cabinet was in consideration of Russia's reply to the note of the British Government, which reply is evidence that Russia is not prepared to abide by her original circular, or to take instant action. Gortschakoff does not want war but is averse to the withdrawal of his circular.

Opinion in Berlin.

BERLIN Nov 25—It is confidently believed here that the Eastern question will end without a rupture. The peaceful relations of Russia and Prussia are equally averse to a Congress, which none of the Powers have yet proposed.

The War in France.

LONDON Nov 25—It is believed that a pitched battle is going on to day near Amiens. There was an engagement on Wednesday near Mezieres. The Germans were defeated and suffered heavily. There has been fighting all day at Villcers, Brit onaneux. No details received.

LONDON Nov 26—Advices from Berlin confirm the reports that the regulars of the Paris garrison in addition to bodies of people come to the out posts offering to surrender but they are always turned back.

Balloon advices from Paris to Thursday noon represent the situation good. Public morals are satisfactory. The besiegers are silent.

Advices from Tours state that Gambetta returned to that city on Friday.

Two French battalions routed 1,500 Prussians entrenched with three guns at Demvin pursuing them to Quesnelle.

LONDON Nov 26—The Germans after their repulse at Neuts and pillaging Citeaux, concentrated at Dijon.

Twenty thousand Prussians occupied Bellene on the night of the 22d but retired on the 24th towards Nogent le Retran.

A circular of M Favre of Nov 21st asserts that in giving plenary powers to M Thiers he thought the principal one that of the revictualing of Paris was conceded.

LONDON Nov 26—A telegram varying from all other authorities has just been given to the public here announcing that Paris is still confident and that there is subsistence in the city for two months and a half bread for eight months wine and brandy for a year. The telegram says also that the French are erecting additional defenses on all sides.

A German ship said to be the *Lord Brougham*, has been captured off Deal by a French frigate.

BERLIN Nov 25—The Parliament has asked for one hundred million thalers to bring the war to an end.

Arms for France.

LONDON Nov 26—The American steamship *Ontario* left Cowes, for Havre convoyed by two French frigates, with a cargo of 18,000,000 cartridges, 30,000 breech loading muskets, a large number of carbines and muskets, and fifty five cannon intended for the army of the Loire whose movements have been delayed by their non arrival.

Cable Laid between Jamaica and Aspinwall.

HAVANA Nov 25—Though no official notification has been given by the officers of the Panama and West India Telegraph Company, there is good authority for announcing that the cable between Jamaica and Aspinwall has been laid and telegraphic communication with Panama is complete. It is understood that messages of to day's date have been forwarded from Panama to London.

Dispatch from Florence.

FLORENCE Nov 25—King Victor Emanuel has already received the congratulations of the Austrian and Prussian Governments on the election of the Duke of Aosta.

Sharp shocks of earthquake recently occurred at Rome and Vienna.

EASTERN STATES

A Prussian Scheme to get Possession of Some of the West India Islands.

NEW YORK Nov 26—The *Tribune's* Washington special says diplomatic circles are excited just now by a curious rumor relating to the repeated efforts of the Prussian government to secure a foothold in the West Indies. It is stated the Prussian agent visited President Baez in San Domingo some three months ago and informally offered to take a reversion of our annexation scheme to purchase the territory of San Domingo and transfer all to German control. Such news reached here from Havana at the time but was generally discredited. Now however Bismarck has made a definite proposition to the government that Prussia shall be allowed to negotiate for a coaling and naval station either in San Domingo or some other of the West India Islands without opposition from the United States, this government to receive the support of North Germany in obtaining a coaling station in the Mediterranean. The foregoing statement is given as a rumor but it is positively declared that its truth is established. Another phase of the report is that the Germans intend attacking the French West India colonies if they find our government at all inclined to listen to them acquiring such territory by transfer or conquest.

Prussia and France—Cession of Territory

A large quantity of maudlin sentimentality has been written about the iniquity of Prussia in demanding a cession of territory. The writer in the New York *Tribune* disposes of this nonsense in a well conceived and ably written paragraph. Having shown that this war was undertaken by France for the very purpose of robbing Prussia of territory he says:

"It may be well to recall the terms which she imposed upon Prussia sixty three years ago when that Kingdom was relatively to France in the same prostrate position that France is now to Germany. In fact, the comparison of that war with the present one, the position of the parties being exactly reversed is much closer than might be supposed. When Napoleon after defeating the Prussians at Jena entered Berlin in triumph William III (the father of the present king), whose possessions were reduced to such territory as ... Prussia beyond the Oder, sent to know upon what terms he might be permitted to treat for peace and received the imperious answer that not even a temporary armistice would be granted, unless every fortress remaining in Prussia was surrendered, and as that involved the giving up of everything the King wisely as the result proved, resolved to hazard his fate upon the chances of war. A further struggle for nine months ensued, when the Czar Alexander being unwilling to sustain the war longer on behalf of Prussia the treaty of Tilsit was made on the 7th July 1807 by which the King of Prussia was compelled to accept such terms as Napoleon would grant. By it he was deprived of more than half his territory. He was compelled to cede all lying between the Rhine and the Elbe to found the Kingdom of Westphalia for Jerome Bonaparte, and other portions of Prussia were given to Saxony. The seaport of Dantzic had to be relinquished and what was left of the kingdom was closed against any trade with England as long as she remained the enemy of France. He had to surrender up the Polish provinces of Prussia. One part of them Byalystock, was given to Russia and the residue was formed into the Duchy of Warsaw and annexed to Saxony. He had to consent to the confederation of the Rhine as established by France, and to recognize the kingdom of Naples under Joseph, and of Holland under Louis Napoleon. In addition to this the exactions made by France amounted in money to over five hundred million francs and Prussia afterwards, in 1808, had to pay one hundred and twenty million francs to procure the withdrawal of French troops from Prussian cities held in armed occupation for the fulfillment of these onerous terms. But this was not all. Everything that could add to the humiliation of the fallen enemy was heaped upon the defeated Prussian monarch. The conqueror scarcely deigned to notice him when settling the terms with the Czar Alexander, and openly declared that he returned the Prussian territories not to the King of Prussia but to the Emperor of Russia and that if the King reigned at all it was solely by the consent and friendship of the Czar. The public war bulletins sent to France abounded with contemptuous and sarcastic references to the King of Prussia, and in one of them the chastity of his Queen was assailed, an interesting and beautiful woman whose untimely death is believed by the Prussian nation to have been hastened by her grief at the misfortunes of her country."

The Governor and his Creatures

We see an advertisement in the organ h a l l chief of Police Sal Of course every person at a first glance at this would suppose that the great baron le f th and creatures f Gov Grover s wh is kn by the high sounding title f chief f Met ro tan Police was n att [illegible] upon the auctioneer s block and offered for sale But then Old Lapp w uld t [illegible] much It would however be a paying transaction t dispose of him as he is both a useless and expensive ornament to the city Inasmuch as our city government is now a d [illegible] being wholly under the control of the central power at the Capital the Governor at whose pleasure we, his subjects hold our lives and property ought to do us the favor of paying the salaries of his tools and creatures in this city out of his own revenues We notice that some ordinances have been proposed by the Common Council to meet those expenses Ordinances of this nature should not begin with, "The city of Portland does ordain as follows but with, 'Gov Grover does ordain etc Professing to be in favor of popular government, the Democratic party has committed an outrage on popular rights in this city solely for the sake of a supposed party advantage, declaiming against centralization it has gone infinitely further in this direction than it could ever accuse the Republicans of going during the whole period of their power in Oregon It has wantonly forced on this city a government which the people would reject at the polls by a vote of two to one it is taxing the people of this city to support a government which is odious to them it is forcing the people of this city to submit to and pay for a government which is not responsible to the people as every government of freemen and for freemen should be Yet the Governor who has approved this outrage on popular rights, who has sanctioned this blow at responsible popular government and usurped powers which rightfully belong to the people themselves,—this Governor has the matchless effrontery to prate about his devotion to the interests of this people, and to claim great credit in preventing them from "enslaving" themselves by giving reasonable aid to a rail way which would within two years have increased the value of their property by an amount four times exceeding the subsidy And the *Herald* in lauding him for this says

The two inherent powers of political sovereignty, by which the property of the citizen can be alienated, are the right to take private property for public uses and the right of taxation Let it be the boast of the Democratic party that while they exercise power, the poorest man in Portland shall be secure in enjoyment of all his property " Now isn't it something that a people who are to submit to taxation for their own government should have some voice in declaring how the money they pay shall be expended? Is it not reasonable that they should have the right to regulate these affairs, select their officials, and fix their compensation, instead of having a lot of political bummers foisted on them without their consent, whom they are forced to pay? Is not local self-government one of the inherent rights of political sovereignty?" Is the man "secure in the enjoyment of all his property" who is compelled to pay taxes to support a government which he has no share in controlling, whose money is wrested from him to pay salaries and perquisites to the creatures of the Governor, whom that functionary has appointed not with a view to the general good of the city but with an eye to his own advantage and that of his party? Let not the Governor, who has approved such a scheme as this, talk of his devotion to the Constitution and his zeal for popular rights He has acted the part of a usurper and a thief, he has stolen from the people of this city the most valuable of their rights and franchises, and deserves the condemnation and execration of every person who knows his rights as a freeman and has the spirit to maintain them

The Seceding States

The population of the seceding States, and of the border States in 1870 as compared with the census of 1860, is a follows

STATES	1870	1860
Alabama	1 002,000	963 200
Arkansas	486 103	435 450
Florida	189 995	140 424
Georgia	1 185 000	1 057 286
Louisiana	710 394	708 002
Mississippi	834,190	91,305
North Carolina	1 072 000	992 622
South Carolina	735,000	703 708
Tennessee	1 288 320	1 109 801
Texas	850 000	601 215
Virginia	1 209 607	1,596 318
West Virginia	447,942	

It will be seen, says the Chicago *Tribune*, that notwithstanding the war each of the States engaged in the rebellion shows an actual increase in population since 1860, though in most cases it is small The ravages of war during the first five years of the decade, have been overcome by the increase during the last five years

Legislative Venality

The increasing tendency of legislative bodies to yield to influences of corruption cannot but be apparent to every observer who watches closely the events of the times Until recently this evil was remote from our State Our people had read something of it in the doings of other legislative bodies, but charges or even suspicions of anything of the kind had never been seriously brought forward or laid at the door of members of our legislature But the late Assembly made many innovations It is celebrated for a great variety of transactions unknown heretofore in Oregon Such was its course that the whole people feel and believe that a more corrupt body was never raked together in any State About the Capital while it was in session the air seemed to reek with corruption no one could be an hour in Salem without perceiving it We do not ask the people of Oregon to rely solely on Republican testimony to sustain these charges Democrats have expressed themselves similarly Notably among those who have openly charged members of the Democratic majority with yielding to corrupt influences is President Fay an undoubted Democrat a Democrat who fought for his party when Gov Grover and men of his ilk were making peace with the victorious Republicans We cannot doubt that our readers have noticed the report of Mr Fay s recent speech at Jacksonville There was some opposition in the Democratic party to [illegible] Kelly which it is well known, was bought off No doubt this was what Mr Fay specially referred to Kelly's opponents, according to Mr Fay's statement, took $2,000 apiece and supported the caucus nominee This was the beginning of the corrupt work of the session After that there was a scramble for spoils On almost every question a considerable number of the members fixed their price Jobs were bought through and money was [illegible] After the adjournment a number of men were [illegible] with more money than they ever had before in their lives All of them will be anxious to get back again There will be a general scramble among Democrats for seats in the next Legislature and the corruption already witnessed will be as n thing compared with what we shall see two years hence if that party again has a majority The Legislature of Illinois at its late session [illegible] the whole people of that State and [illegible] its venality [illegible]

The West Side Railroad

The *Bulletin* has an article on this subject from which it appears that the new west side company have not secured the land grant in which it has been designed to construct the west side road As this is a subject of very general interest we give place to the following extract from that paper

In order to satisfy all that Mr Holladay courts the fullest inquiry in the subject and seeks to evade nothing, we will by his authority, state precisely that which he agreed to This was his offer and he proposes to abide by it and fulfill every obligation under it to the letter Mr Holladay agreed to pay the debts of the old west side company, *provided he secured the land grant and used the road built by that company* Now just this and nothing more, was his agreement He has not violated nor in any way sought to evade the conditions of this proposition The Willamette Valley Railroad Company have not secured the land grant, and until that is secured it must be plain to all that the work of construction cannot well go on This is the state of the case and the *Herald* is welcome to any capital it can make out of the subject

The evidence not only of a close sympathy but of a secret agreement between Prussia and Russia must now be considered conclusive But Prussia, it is also evident does not want to see a rupture between Russia and the other Powers, on the Black Sea question Such a war might and probably would imperil Germany's position in France and might lead to a loss of all that Germany has gained For if a war breaks out between Russia on one side and Austria and Great Britain on the other Germany will surely be involved in it Hence the King of Prussia would be very glad to have the Eastern question postponed until he has settled fully with France But Russia repeats her menace and England seems firm and war like War, evidently is among the probabilities

It is amusing to notice, says the Marysville (Cal) *Appeal*, the wonderful degree of admiration exhibited by the Democratic papers for Secretary Cox since his falling out with the President It answers their purposes to extol him to the skies, and to correspondingly detract from the merits of the President But let us fancy it were possible that Cox should receive the Republican nomination for the Presidency In such an event the Democratic papers would assail him as bitterly as they now attack Grant and would no doubt charge that he had sold himself in the McGarrahan matter and was working in the interests of the rich claimants to swindle poor Billy McGarrahan out of his just rights

The Washington *Chronicle* of the 15th prints a very large number of extracts from prominent journals sustaining President Grant in the controversy that has arisen out of the resignation of Secretary Cox Many papers that had expressed opinions unfavorable to the President, have retracted them since the publication of the correspondence between the President and the Secretary and now admit that the former was entirely right in the matter

It is suggested by the New York *Herald*, a paper which supports the Tammany Ring that inasmuch as the chief members of the said Ring have all become millionaires through their connection with politics, they should now begin to do something for the benefit of the city The *Tribune* says the suggestion is preposterous The Ring are now ambitious to get control of the National Government, and will go on with their schemes of fraud and plunder

The 'Mountaineer' on the "Herald

We notice that the Dalles *Mountaineer* (Radical) comes to the rescue of Senator Trevitt of Wasco, and Hendershott of Union, while the Portland *Bulletin* (Radical) comes to the defense of Senator Fay, of Jackson

The above from the Portland *Herald* will be news to the readers of the *Mountaineer*. If we have said one word that could be construed into a defense of the political acts of either of the gentlemen referred to, while members of the last Legislature, we will take it all back as we personally do *not* endorse their political course the past session, no more than we did the rabid copperhead views entertained by both during the late war for the Union

We have, however, been personally acquainted with these gentlemen for more than ten years and hold each in high esteem for their personal qualities We differed with them materially during the war, and while the editor of this paper was a soldier in the Union army, and the publisher of the *Herald* the present Democratic State Printer, a Loyal Leaguer and Home Guard or Jayhawker under Jim Lane of Kansas, Hendershott and Trevitt were voting and acting with the party that was violently opposing the war and sympathizing with the Southern rebels We give them credit, however, for being consistent in their political views, and are willing to concede that they were then and are now honest in their opinions, while we cannot say so much for the man of the *Herald*

While upon this subject, let us remark here, that the *Mountaineer* is not a 'Radical ' or a political paper in any sense of the word It aims to be an independent news journal devoted to the local interests of the people east of the Cascade mountains It has not, since the election of President Grant, published one single article, save in its news columns, on political subjects neither does it intend to do so in the future

In the same connection the *Herald* does not seem to us to be particularly attached to any political party, but rather to represent the interests of certain capitalists, so called, who loan the publishers driblets of money to keep the concern afloat We have no means of knowing the particular person who does the editorials for that paper at this present time—neither is it of much consequence to the public we opine—but we do know that it was but a few weeks since that a certain Dr Ames, a radical Republican imported into the State by Ben Holladay was its editor in chief and that that paper immediately after the late Senatorial contest denounced Col Kelly, and the caucus which nominated him because he pledged himself at the instigation of the Democratic majority, to support certain local interests not in accord with the views of a very selfish Republican banker, who held the promises to pay of the owners of the *Herald* to a considerable amount

In conclusion, and in defense of Messrs Trevitt and Hendershott as well as the entire delegation from Eastern Oregon we will say that their efforts in behalf of the local interests of their constituents while at the Seat of Government meets with the hearty approval of not only ourself but of every one of both political parties whom we have heard express themselves on the subject

Queen Victoria has now nine grandsons and eight granddaughters together seventeen grand children, of whom the Crown Princess of Prussia gives five (one died in 1866), the Princess of Wales five, the Princess Alice five, and the Princess Helena two And the Queen has still five unmarried children

The *Statesman* hears of another son having died in the family of W B Ernest living in Polk county The prevailing disease has thus taken two members of that family.

The Jacksonville *Sentinel* says that Robert Hargadine, of Ashland has purchased 100 Angora goats, proposing to give them a trial in that section of country Their long coats of fleecy, white hair are much prized and command $1 per pound in San Francisco

A few days ago a small sloop was caught in the breakers near Fort Stevens Capt Gray of the little steamer *Ocean* at a great risk to himself his vessel and crew went to her relief and rescued her from her perilous situation She otherwise would have been lost with those on board Great credit is due to Capt Gray for his gallantry

From the Dalles *Mountaineer* of Saturday Mr Bufford who is in the saw mill business on Fifteen Mile creek informs us that ice to the thickness of about three inches was made on the mill pond at his place during the past week He in company with several other gentlemen intends putting up a large quantity of this ice this winter for this and the Portland market

From the *Statesman* of Sunday Circuit Court will probably meet to-morrow but we doubt if the regular term will be held, on account of the small pox excitement The necessity for taking all possible steps to avoid the spread of disease is obvious, and Judge Boise will be commended for exercising prudence The docket we publish is kindly furnished by Mr Corper, County Clerk and is unusually light on account of the unwillingness of persons to come together in crowds while contagious disease prevails in our county

From the *Statesman* The reports of the State officers, up to September 1st, were published by the late incumbent of the office of State Printer as has been usual for many years past as they could not otherwise be prepared in time for the use of the Legislature The work was done by E M Waite, to whom the warrants were transferred but, on their presentation by him to the State Treasurer, that officer decided that there was no appropriation for their payment A writ of mandamus was asked for and granted by Judge Boise, and the Treasurer was ordered to pay the warrants or appear and answer at the next term of Court This case will probably be argued next week but we doubt much if there will be any term of Court held for trial of other cases as the smallpox question will be a bar to the regular transaction of business

The Albany *Register* says Samuel Farmer of Sweet Home Valley, in Linn county, accidentally shot himself, on the 18th in the following manner Mr Farmer and a neighbor, Joseph Earl, were in the mountains at a point some ten miles from their homes, hunting While resting a few moments, engaged in conversation, Mr Farmer sitting on a log with the but of his rifle resting on the log between his legs, and Mr Earl standing in close proximity, the gun slipped from its position, and the hammer striking the log in its descent exploded the rifle sending the contents, a half ounce ball, into the body of Mr Farmer The ball entered the body just below the naval, and came out between the shoulders, causing death in about twenty minutes Deceased was about thirty five years of age, and leaves a young wife and two children to mourn his loss Mr Earl as soon as he ascertained that Mr Farmer was dead made all haste to the valley to secure help to bring the body in, leaving a dog belonging to the deceased to watch and guard over him Parties started immediately to bring in the deceased, but Mr Earl had been so excited by the event that he could not find the spot The body was not found until the next day, and then only through the barking of the faithful dog who had refused to leave the side of his dead master

Senator Schurz recently remarked in conversation that the great question at issue in the late election in Missouri was not the tariff but the question of amnesty and suffrage He said that if there had been a difference of opinion on the so called revenue reform alone it would have been compromised in the Republican State Convention He thinks there is a great sentiment in the West in favor of a reduction of the tariff but he is not sure that it will be made the basis of a new party organization In many districts the people are not in favor of the protection of any industry except that in which they are interested, and the Senator intimated that such might be the case in Missouri though the late election gave no intimation of how they would vote on the question of the tariff

The British bark *Lyra* arrived 185 days to Astoria, from Newport, Wales, consigned to Corbett & Macleay with cargo as follows 3 361 iron rails 604 fish bars, and 2 bags bolts for the O & C railroad—amounting to 700 English tons She is in tow of the *Okanogan* for this city

THE TERRITORIES

On the 24th inst the boilers of the saw mill at Tacoma W T blew up The engineer was badly injured

From the Owyhee *Avalanche* Capt Borland informs us that while taking the census of Oneida county Idaho, he found a buxom couple, who had only been married five years, and during that time had seven children among whom were three pairs of twins

The Walla Walla ... says that a petition is being circulated praying Congress for a charter and lands for the construction of a railroad from Steilacoom City, "the head" of the Sound across the Cascade mountains, ... the great valley of the Yakima to Walla Walla city thence to Boise City thence to the Central Pacific Railroad at the most suitable point

A few days ago Henry Bankson and C W Baker had a fight near Seattle Bankson went to Baker's cabin, opened the door and commenced an assault on him with a hatchet inflicting two blows upon the head, when Baker wrested the implement from him, and in turn dealt him several blows on his *caput* The continuance of the unpleasantness was prevented by some squaws

Gov Salomon, of Washington territory is accomplishing great things in bringing immigrants to this coast Already he has induced several large parties to come, and now the Olympia *Tribune* states that three parties more, numbering one thousand persons (Germans), will come to that Territory next spring These results show what a live man like Gov Salomon can do President Grant did a great thing for Washington Territory when he gave Gov Salomon the place occupied by that incompetent barnacle, Flanders

An Owyhee paper says It is believed by many that the disembodied spirit of John C Holgate—who was killed during the Chariot & more war of 1868—has its abode in the old deserted chambers of the mine, which he died in defending Not long since a Chariot miner saw what he termed Holgate's ghost standing in a dark passage near the boundary line between the two mines The ghastly lips moved as if speaking and the thin bony hand beckoned the observer to approach He felt his hair standing on end, and turned and fled, reaching his companions in the stope more like a ghost than a live being Others have seen the same apparition, and declare it to be either Holgate or his ghost.

CALIFORNIA AND NEVADA

Three car loads of Chinese were sent forward on the 18th, to Louisiana, where they are to be employed on cotton plantations

The amount of bullion extracted from the Comstock lode Nevada, up to April 1870 amounted to $110,260,000 This is at the rate of $12,000 000 a year, or $1 000,000 per month added to the bullion of the world

The Central Pacific Railroad Company has purchased the following named fleet of bay steamers and steam ferry boats *Washoe, El Capitan, Oakland, Alameda Louisa* and *Flora Temple* for the handsome consideration of one dollar.

The Union Pacific Salt Company of San Francisco, refine on an average 20 to 30 tons per day of all kinds Twenty-four dividends have been paid by this corporation since its organization in April 1868 aggregating about $1?0 000 The amount paid in and accumulated capital has reached over $160 000, and the sales for 1869 were over $200,000

From the San Francisco *Commercial Herald* Since politics have been made an indispensable requisite in the Fire Department the losses from conflagration have been frightfully increased Instead of selecting men to fill the important and responsible positions of Chief and Assistant Engineers because of their superior ability and experience, they are now appointed on the strength of their being a sound partisan The community whose property is thus jeopardized is becoming disgusted and indignant with this condition of things, and will some day put an emphatic veto on its continuance

A Speech by "Col" Fulton

[From the Mountaineer]

Our Wascopum Demosthenes met his constituents in mass meeting at the Court House last Tuesday evening where he limbed skinned and jayhawked his colleagues, Representative Savage and Senator Previtt in a style most entertaining for outsiders to behold He admitted that Judge Hunnason did the pen writing for the entire delegation and was the author of all the bills that had been introduced for the benefit of Wasco county not excepting the one to prevent swine from running at large His argument in his own defense was as clear as mud, and he proved conclusively to the mind of every Republican, that the last Legislature *and hit Democratic*—was the most corrupt that had ever before congregated at the State Capital From his remarks, we are led to the conclusion that Ben Holladay had everything his own way up *there* and that he really elected Kelly as nothing could be done by the Democratic party in power unless in the interest of or through the influence of the Great Mogul that really the half million of dollars expended by Ben at the last election ... cast upon the waters had returned to him In fact Holladay had everything his own way and through his ... our wagon road up the Columbia river was defeated Heretofore it had been suspicioned that the O S N Co had something to do in that direction but the Colonel cleared that up although not entirely to the satisfaction of his audience The people here in their innocence had comforted themselves that they had but one monopoly to contend against the capitalists so called and they found that they would be compelled to take a tilt at the Grant Ben Holladay to whom the O S N Co were but pigmies Not satisfied with making Portland a rathole he is turning his evil eye in this direction and it is time to set our house in order and prepare to emigrate

His attack upon the Democratic Legislature did not go down very well with some of the ... hard rocks who were ungenerous enough ... this minute that the Colonel ... had not yet entirely cast aside the Republican spectacles that he looked through two years ...

Take it all in all the Colonel's ... a good ... and the boys

The Boston steamer *Ontario* recently cleared for Cowes and a market with the following cargo 73 620 muskets 20 030 carbines 500 rifles 500 army revolvers, 17,785,052 cartridges, 1 case of moulds, 55 pieces of artillery The total value of the warlike material is $1,853 497 three fourths of which is shipped by one house Of course, all these arms are shipped in the interest of the French Republic

CURRENT NOTES

The model of a colossal bronze statue which several friends of the President propose to erect in commemoration of his military services has just been placed on public exhibition at the rooms of an artist in Boston The cast of the horse was taken from General Grant's favorite blooded war steed Cincinnati The figures are represented in a state of almost perfect repose All the lines of the horse and rider are double the measurement from life so that the bulk and weight of the statue will be eight times one size The cast when finished will be sent to Philadelphia where the bronze casting will be made from it When completed, it will be placed on the flagged terrace south of the treasury building It will be on a stone pedestal eight feet high and will face to the south, making a most conspicuous object from Pennsylvania avenue

Plain Language from Truthful James

The following bit of keen but humorous satire by Brett Harte has [illegible]

(TABLE MOUNTAIN)

Which I wish to remark—
  And my language is plain—
That for ways that are dark
  And for tricks that are vain
The heathen Chinee is peculiar
  Which the same I would rise to explain

Ah Sin was his name
  And I shall not deny
In regard to the same
  What that name might imply
But his smile it was pensive and childlike
  As I frequent remarked to Bill Nye

It was August the third
  And quite soft was the skies
Which it might be inferred
  That Ah Sin was likewise
Yet he played it that day upon William
  And me in a way I despise

Which we had a small game
  And Ah Sin took a hand;
It was Euchre The same
  He did not understand;
But he smiled as he sat by the table
  With the smile that was childlike and bland

Yet the cards they were stocked
  In a way that I grieve
And my feelings were shocked
  At the state of Nye's sleeve
Which was stuffed full of aces and bowers
  And the same with intent to deceive

But the hands that were played
  By that heathen Chinee,
And the points that he made
  Were quite frightful to see—
Till at last he put down a right bower
  Which the same Nye had dealt unto me

Then I looked up at Nye
  And he gazed upon me,
And he rose with a sigh,
  And said "Can this be
We are ruined by Chinese cheap labor —
  And he went for that heathen Chinee.

In the scene that ensued
  I did not take a hand,
But the floor it was strewed
  Like the leaves on the strand
With the cards that Ah Sin had been hiding
  In the game "he did not understand.

In his sleeves, which were long
  He had twenty-four packs—
Which was coming it strong
  Yet I stand by the facts
And we found on his nails which were taper
  Which is frequent in tapers—that's wax

Which is why I remark
  And my language is plain,
That for ways that are dark
  And for tricks that are vain
The heathen Chinee is peculiar—
  Which the same I am free to maintain
—*Overland Monthly*

GENERALITIES

The corrected census shows a population of 9,115 in the Territory of Wyoming and 14 021 in Dacotah Territory exclusive of the Indian population

A telegram from Lille dated Nov 10th states that the city council on that day unanimously passed a resolution that Marshal Bazaine, in telling the army which he traitorously surrendered to the enemy that the city of Lille and all Northern France craved peace at any cost, lied signally, and this body indignantly spurns the lie

A Chicago paper referring to the "Another lie nailed" catch phrase at about election times, calls it "Another fragrant fiction impaled upon the nefarious fork of fact" This ought to suit the most fastidious

The Milwaukie (Wis) *Sentinel* recounts as among the causes which contributed to the success of the Democratic candidate for Congress in the First District of Wisconsin these "The influence that attaches to great wealth the free use of money during the campaign, the advantages which it was supposed would accrue to Milwaukie from the election of its wealthiest citizen, the sinking of all distinctive issues by the Democracy, the stubborn silence of the candidate and misrepresentation of his position on national questions, and the fact that he stands at the head of the railway system of the State which penetrates every part of the district.

One of the little vexations of the postal service of this country is the accumulation of nickel and copper cents in several postoffices of the country They are constantly coming in but go out very slowly indeed so slowly that there are few postoffices in which they have not largely accumulated In Louisville, for instance, the Postmaster reports 100 000 of them. The Postmaster General will probably recommend in his annual report that Congress should provide under proper guards for the delivery of such coins in amounts of fifty dollars or upwards to the nearest Assistant Treasurer and scarcely any postoffice of note has a less amount The whole number of such coin now held by the several postoffices will probably reach forty million cents &c As a means of getting rid of this mass of coin, a portion of which is now redeemable only in small sums and some of which is not redeemable at all, it is proposed to authorize the several Assistant Treasurers to give receipts for the same, which may be used for making returns to the Post Office Department

General George B Maxwell, the Gentile candidate for Congress from Utah Territory, who was defeated by the Mormon, William H. Hooper, does not propose to let the matter rest where it is Maxwell is a profound hater of the Mormon ideas of polygamy and union of Church and State, and being a lawyer by profession, proposes a contest for the seat claimed by Hooper He bases his contest on several grounds (probably made necessary by the fact that Hooper's majority was more than 21 000, in a poll of 25,000) Among others, the illegality of the female Mormon votes, and that Hooper is disqualified under the Fifteenth Amendment, because he is a Mormon Congress will have a nice question to decide when Maxwell vs Hooper is reached The decision will involve the question of how far a citizen of the United States becomes disqualified from holding office by the practice of polygamy, in violation of law

The *Dziennik Poznanski*, a Polish paper published in Prussia, claims that some of the most brilliant achievements of the German army, in the present war were performed, not by Germans, but by Poles, from the Polish provinces of Prussia. The Third Division of the Landwehr under General Kummer, whose coolness and determination in the battles before Metz have been so warmly praised, consists almost entirely of Poles

It is ascertained says a Washington dispatch, that the President does not intend to make any issue with Senators Schurz, Sumner and others who are disposed to criticise his policy He concedes that they have the right to criticise within the lines of the party There will be no occasion for the so-called revenue-reformers who have hitherto acted with the Republican party going to the opposition, unless they are so disposed The President will do nothing to force them into such a course.

LAND DEPARTMENT

OREGON & CALIFORNIA RAILROAD COMPANY.

SALEM OREGON October 22, 1870

THE FOLLOWING STATEMENT IS MADE FOR information of all concerned

First Congress has granted to the Company all alternate sections of the public lands designated by odd numbers within a distance of thirty miles on each side of the railroad excepting lands to which a pre-emption or homestead claim had attached prior to the withdrawal by Government of the lands co-terminous with the first division of located line from East Portland to Jefferson at 12 M February 16 1870 The second division of located line from Jefferson to a point six miles south of Roseburg May 1870 and from the last named point to the California line 1870

Second—Persons who have valid pre-emption or homestead claims to any tract in an allotted section can purchase the same from the Railroad Company at the Government price of $1 25 per acre in greenbacks and upon very favorable terms, if they so desire by filing an abandonment of their claim in the U S Land Office blanks for which will be furnished by the Land Agent of the Company Such purchase from the Company has these advantages over a purchase from the Government The party can leave the land if necessary he can sell the land or mortgage it, he is saved the payment of lawyers or agents' fees, and expenses of witnesses to go to the Land Office to prove up his claim; he can get his title patent in less time, and he can buy on credit at a low rate of interest

Third—No sales will be made by the Company until the land is listed over to it by the United States Land Commissioner and Secretary of the Interior

Purchasers are thus assured that the title they obtain is perfect I R MOORES

NEW REMEDIES, NEW REMEDIES

Dr Gibbon's Dispensary,

623 KEARNEY STREET NEAR COMMERCIAL

San Francisco Established in 1854, for the treatment of Sexual and Seminal Diseases such as Gonorrhoea Gleet Stricture Syphilis in all its forms Seminal Weakness Impotency etc Skin Diseases (of years standing) and Ulcerated Legs successfully treated

DR GIBBON has the pleasure of announcing that he has returned from visiting the principal Hospitals of Europe and has resumed practice at his Dispensary Kearny street corner of Commercial St, where his old patients and those requiring his services may find him

The Doctor has spared neither time nor money seeking out new remedies and has returned with increased facilities for the alleviation of human suffering

Horrible Diseases.

How many thousands of persons, both male and female are there who are suffering out a miserable existence from the effects of secret indulgences or from virus absorbed into the system! Look at their pallid emaciated and disfigured faces and their broken-down constitutions disqualifying them for the happiness of marriage or the enjoyment of life In this horrid situation thousands suffer until death closes the scene Let parents guardians friends attend to those who are suffering with any of these horrible life-destroying maladies—see that they are cared for and cured before it be too late Send them immediately to Doctor Gibbon a physician who has made private diseases his especial study for years and who is certain to cure the most inveterate cases without mercury or any injurious drugs It is important to those who are afflicted or to those who are interested in the welfare of their friends to be careful of the many pretended doctors who infest all cities publishing their skill in curing all diseases in a few days imposing upon the public by using the names of eminent physicians from Europe and other places Be therefore careful and make strict inquiry or you may fall into the hands of those charlatans

Seminal Weakness.

Seminal Emissions the consequence of self-abuse This solitary vice or depraved sexual indulgence is practised by the youth of both sexes to an almost unlimited extent, producing with unerring certainty the following train of morbid symptoms, unless combatted by scientific medical measures viz Sallow countenance dark spots under the eyes pain in the head ringing in the ears noise like the rustling of leaves and rattling of chariots uneasiness about the loins weakness of the limbs confused vision blunted intellect loss of confidence diffidence in approaching strangers a dislike to form new acquaintances, a disposition to shun society loss of memory hectic flushes; pimples and various eruptions about the face, furred tongue fetid breath coughs consumption, night sweats monomania and frequent insanity If relief be not obtained should apply immediately either in person or by letter and have a cure effected by his new and scientific mode of treating this disease which never fails of effecting a quick and radical cure Dr G will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of his complaint by either of the San Francisco quacks

MARRIED MEN,

Or those who contemplate marriage who are suffering under any of these fearful maladies should not forget the sacred responsibility resting upon them nor delay to obtain immediate relief

DOCTOR GIBBON is responsible and will give to each patient a written instrument binding himself to effect a radical and permanent cure or make no charge.

CURED AT HOME.

Persons at a distance may be CURED AT HOME by addressing a letter to Dr Gibbon, stating case symptoms length of time the disease has continued and have medicines promptly forwarded free from damage and curiosity to any part of the country with full and plain directions for use For Ten Dollars, sent in registered letter or through Wells, Fargo & Co.

THE RIVERSIDE

HOMESTEAD ASSOCIATION!

OF

EAST PORTLAND, OREGON,

IS NOW PREPARED TO RECEIVE SUBSCRIPTIONS to their Stock

Application for ONE HUNDRED SHARES was made before the books were opened, and a large number of Shares have been taken

The following extracts from the *Oregonian* and *Bulletin* will convey a good idea of the plan and working of the Association the location of the land, etc. etc.

RIVERSIDE HOMESTEAD ASSOCIATION

This association of whose organization we gave an account a few days since, is now ready to dispose of shares As it is with one exception, (the Portland Homestead Association) the pioneer organization of that kind in this city, it may be well enough to state what are its purposes and the manner in which it is proposed to conduct its operations The purposes of these Homestead Associations are not at all speculative in the ordinary sense of the word They are depending for the profits of their investment upon the natural advance in the value of their lands consequent upon the co-operation of many individual shareholder and the advance [illegible] of all surrounding lands by reason of the [illegible] of population and demand for room [illegible] still near, the city The Riverside Homestead Association has a fraction over one hundred and twenty acres of land situated just south of Brooklyn on the east side of the river, the northest boundary line being about one mile from the ferry landing at East Portland The tract lies in one strip along the Willamette river, half a mile in length and another strip along the Oregon and California railroad, half a mile in length, the two strips being connected near the middle by two rows of blocks (with a street between them) the whole forming a figure not unlike the letter H. It is divided into 74 blocks, 200 feet square (with streets running at right angles) and 60 fractional lots, along the river front. The shares number 500 worth $60 per share It will be seen that a share thus represents nearly a lot [illegible] undivided interest in the 60 fractional lots. The fractional shares are to be sold off at the proper time for the benefit of the Association, [illegible] coming in for the proceeds in proportion to the number of shares held When [illegible] taken and the Association shall determine to do it, the choice of lots and blocks will be put up at auction to the highest bidder the proceeds of such sales, after [illegible] the original price of shares or lots, to be divided equally among the whole [illegible] Thus, if a person wants a particular lot or block and is willing to pay $100 or $500 premium (more or less as the case may be) he pays it and takes the lot or block as his individual [illegible] the premium being divided among the whole number of shareholders It will be seen, therefore, that everything is co operative, and all [illegible] No man can make a dollar [illegible] without also making a dollar for every [illegible] shareholder There is no chance for loss, unless the property by some chance, should [illegible] far below the first actual cost [illegible] liable to happen in the case of this [illegible] tract of land must be judged by [illegible] but considering the steady and [illegible] advance on real estate in this city and [illegible] hood, and at East Portland and vicinity, for the last year or two, it [illegible] values to go back

In the Riverside Association all proper precautions seem to have been taken to guard against monopolies of shares. No person is allowed to buy more than the number of [illegible] three blocks, or twenty-four lots, and [illegible] determining the operations of the Association [illegible] restricted in the same manner. The buyers of shares may pay down $60 per share, which will exempt them from all [illegible] they may pay $15 quarterly with an [illegible] share, payable with the first [illegible] liable in this latter case to another (and only one other) assessment of $3 per share. Upon the payment of the shares in full, with [illegible] as above, the holder is entitled to his [illegible] and his proportion of all the profits [illegible] from all sources No officer of the Association receives any pay for services except the [illegible] who gets $25 per month, so it will [illegible] that the expenses must be light.

That part of the tract lying along the river is a high plateau, nearly level, about [illegible] feet above the water There is no part of the first row of blocks but [illegible] view of Portland and the river for miles up and down stream That part of the tract lying along the railroad is, every foot of it, of the [illegible] soil and adapted to gardening purposes [illegible] A beautiful little stream of pure water runs through almost the entire length of this strip of the tract, affording the means of irrigation, and power sufficient to supply pure water to every part of the whole tract There is not a waste lot or [illegible] lot in the entire tract Under all these advantages it would seem impossible that there should be any chance of loss to shareholders. Within a year each shareholder if he chooses may get a perfect title to as many lots as his shares may represent or he may continue his interest, undivided with the Association while the organization may exist —*Oregonian.*

THE RIVERSIDE HOMESTEAD ASSOCIATION.

We have been led to make these remarks from the fact that the subject of making homesteads on the outskirts of this city and East Portland, is being the daily [illegible] discussed here among all [illegible], and one [illegible] Riverside just south of East Portland has already been established The site selected is a tract of land lying a little over a mile south of the ferry. [illegible] It is shaped like the letter H, one [illegible] of half a mile in length borders on the river.

From this portion of the [illegible] but a trifle above the other prong of the H, but is still forty or fifty feet above the river, this [illegible] extensive view of Portland East Portland, the [illegible] the Willamette river for several miles. The land is [illegible] fertile and is partly covered with light fir timber A tract of land just wide enough for two rows of blocks, with an avenue between them, connects the west prong of the H which has already been [illegible] with the [illegible] the east This last tract of land is in a [illegible] valley which is now under a high state of cultivation Through its whole length runs a brook, the water of which is clear as crystal With a hydraulic ram the Association proposes to have water conveyed through pipes to every portion of the homestead.—*Daily Bulletin.*
